FEB 16, 2026

“We’ll take the wheel on this one.”

STEERED

STEERED.

A way to remove the **confusion** and **paralysis** when choosing books, letting reading be **the stress-free, relaxing activity** that it should be.

Let us take the wheel on finding your next read, **so you can get back in the pages.**

Lestat Hans

STEERED. PR

Avoid a never-ending TBR list by finding books catered to your interests.

Preview Interface

Open a book to view metadata, writer context, and cover art without leaving the Steered experience.

Discovery Engine

Our dashboard frames genre filters, editorial previews, and recommended stories in a calm, refined layout.

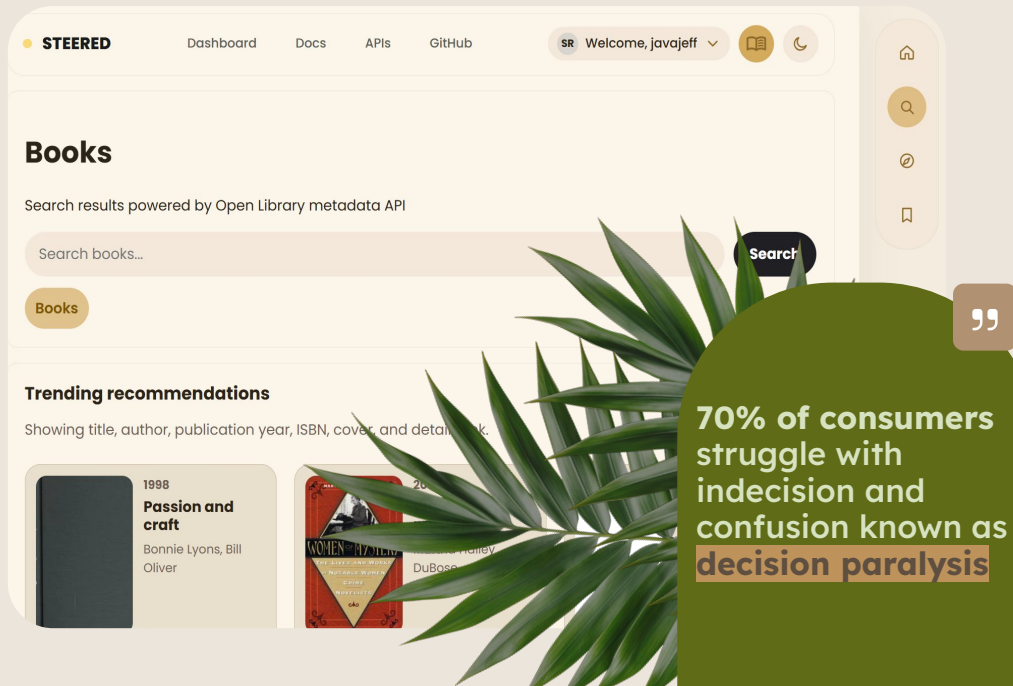

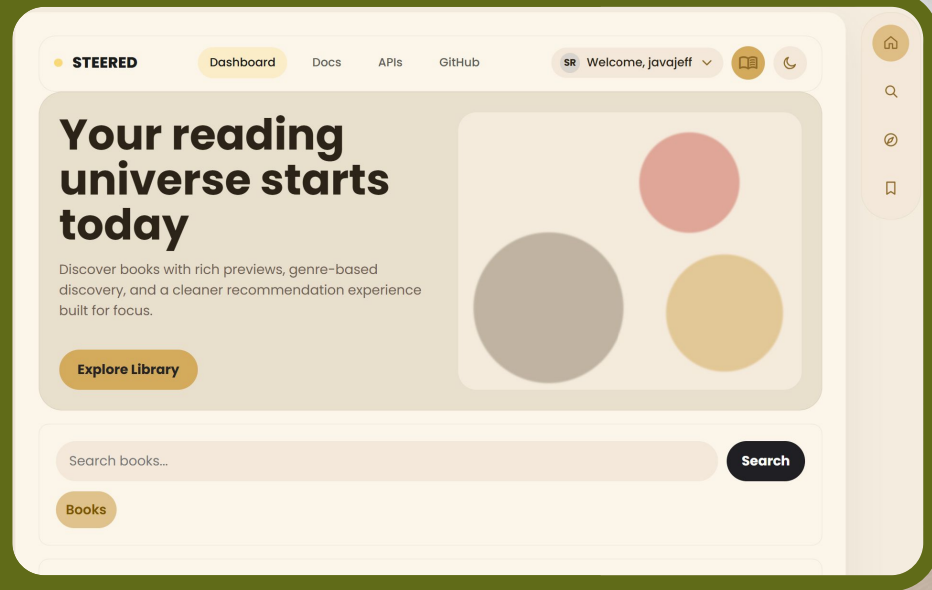

Bookmarks

Save titles to your profile and return to them later with one clean, organized list.

‘ HOW STEERED. WORKS ’

STEERED blends curated content with OpenLibrary metadata to create a calm, **easy-to-navigate** experience that simplifies decision-making.

SEARCH. FILTER. SAVE.
READING MADE SIMPLER.

Java Jeff
STEERED. User

Find books tailored to
your preferences,
discover **your new**
favorite author, and
build community with
others **through**
reviews.

”

Filter by genre!

Find **exactly** what

Book ID: works/OL2763537W

Web Standards Programmer's Reference

Author(s): Steven M. Schafer

Published: August 5, 2005

ISBN: N/A

Overall rating: N/A

Description

This invaluable resource offers tutorials and real-world examples as well as thorough language references for Web markup languages (HTML/XHTML and CSS), and popular scripting languages (JavaScript, Perl, and PHP). Examines the role of JavaScript, CGI (with examples in Perl and Python), and PHP on the Web and shows how to best use them all. Includes a valuable reference section on each technology that can be used for review and consultation.

API REFERENCE

Reading Toolkit API

Read saved books, manage your profile, and power reading discovery from a clean REST interface.

SAVED BOOKS

List saved titles

Retrieve the books you have saved or bookmarked. Filter by genre, theme, and open reading status.

GET

/api/books?status=saved&theme=cozy

DISCOVERY

Query by theme

Search for books using your profile tags and theme query. Receive personalized suggestions for the next reading session.

POST

/api/discovery

PROFILE

Update preferences

Save your favorite genres, avoid disliked categories, and keep your reading moods synced with discovery.

PUT

/api/user/preferences

SECURITY

Authenticate safely

Use session-based authentication to protect your saved books and profile settings.

GET

/api/auth/status

EXAMPLE

Request example

Copy this example to query your saved books and reading preferences.

```
curl -H "Authorization: Bearer <token>" "http://localhost:5000/api/books?status=saved"
```

‘ READING TOOLKIT API ’

STEERED’s reading toolkit API allows you to **customize your experience** by managing saved books, preferences and discover in a simple and scalable way?

An easy-to-use system that **moves** with you.
